SUMMARY

I'm passionate about software development, focusing on front-end React and back-end technologies. I create user-friendly interfaces and scalable systems aligned with organizational goals. I stay updated and hone my skills to tackle challenges and deliver top-notch solutions..

EDUCATION

Btech (2024)	Government College of Engineering Amravati CGPA: 8.4
Higher Education (2020)	BabaSaheb Utangle Jr College, Akola Percentage: 78%
Primary Education (2018)	Saraswati Vidya Mandir, Khamgaon Percentage: 88%

WORK EXPERIENCE AND INTERNSHIP

- **Hastute** -Designing and implementing user interfaces using HTML, CSS, JavaScript, and Bootstrap CSS. I collaborated with the team to create visually appealing and functional web applications that met client requirements and enhanced user experience.
- **Persistent Systems (Under Martian Program)** - Training in Operating Systems, Data Structures and Algorithms, Computer Networks, and SQL.
- **Layinfotech** Focused on JavaScript for dynamic interfaces and responsive design across devices, contributing to high-quality project deliveries.

SKILLS

Languages:	C++, C, JavaScript, SQL
Technologies & Tools:	React.js, Node.js, Express.js, Bootstrap CSS, Mongoose, Visual Studio Code, Postman, GitHub, PyCharm

PROJECTS

Job Ease

A full-stack application utilizing React for the front end and Firebase for the back end, featuring SMTP.js functionality. It serves as an online platform connecting job seekers and employers, streamlining the recruitment process

Tiffin Box

A full-stack web application built with the MERN (MongoDB, Express.js, React.js, Node.js) stack. It serves as a platform to manage the mess system for both owners and consumers, providing efficient management and user-friendly experience

Ecommerce Dashboard

Responsive React app for managing online store analytics with interactive charts using Chart.js and React animations.
